INTRODUCTION

Computer Science student at Western University with hands-on experience building full-stack applications and industrial automation software across Java, Python, JavaScript, and SQL. Seeking a software engineering or data science internship (4 months preferred, open to 8–16) to bring production experience and problem-solving skills to real-world systems.

EDUCATION

Western University (UWO)

Bachelor of Science, Honours Specialization in Computer Science

London, ON

2023-2027

Galt Collegiate Institute (GCI)

• French Immersion Student • Student Athlete (junior and senior boys' volleyball)

Cambridge, ON

2019-2023

WORK EXPERIENCE

Integrated Software Intern

RidgeTech Automation

Jan 2026 – Aug 2026

Cambridge, ON

- Built SCADA applications for manufacturing clients including Maple Leaf Foods and Air Boss, using Ignition, Python, and SQL
- Delivered a 15-minute project presentation at a company-wide townhall meeting to an audience of ~50
- Participated in an on-site client visit to AirBoss, a rubber manufacturer, to gather requirements directly from the production floor
- Contributed full-stack development across multiple client projects

Weld Shop Team Member

Toyota Motor Manufacturing Canada

May 2024 – Sept 2025

Cambridge, ON

- Rotated across multiple roles assembling and installing doors, hoods, and fenders for Toyota RAV4 and Lexus NX models with precision, ensuring quality standards
- Excelled in both on-line and off-line roles in a high-speed, demanding environment, contributing to efficient plant operations

Assembler

Loblaws Distribution Centre

June 2023 – Sept 2023

Cambridge, ON

- Operated a center-ride pallet machine to assemble high-volume, time-sensitive grocery orders with 95%+ efficiency
- Consistently exceeded productivity targets in a fast-paced warehouse environment

PROJECTS

[jobtrends.ca](https://www.jobtrends.ca) | React, FastAPI, PostgreSQL, Docker

Sept 2026

- Built and self-hosted a full-stack Canadian job market analytics platform, with a Python ingestion pipeline processing monthly government job posting data into a PostgreSQL database exposed via a FastAPI REST API

jaggeradams.com | HTML, CSS, JavaScript

2024 - Present

- Programmed a responsive portfolio website with parallax effects and scroll-triggered animations

RELEVANT COURSES

IBM AI Fundamentals, IBM Cybersecurity Fundamentals, CS 2210 (Data Structures & Algorithms), CS 2212 (Intro to Software Engineering)

TECHNICAL SKILLS

Languages | Java, Python, JavaScript, C, C++, HTML, CSS, React, SQL • Linux

Awards | 2024-2025 Dean's Honour List (Western), Slater Award for Excellence in Mathematics (GCI)
